

The background image shows a modern university building with large glass windows and a stone facade, set against a vibrant sunset sky with orange and pink clouds.

QUEEN'S ENGINEERING COMPETITION DELEGATE PACKAGE 2018

To our Delegates,

We are incredibly excited to welcome you to QEC 2018! Our team has been working hard to deliver a weekend of problem solving and competition. We encourage you to take full advantage of this opportunity to creatively apply your knowledge to a myriad of problems the likes of which engineers face every day. While this event directly provides you with experience and feedback, we hope that it also inspires you to see the value of our academic efforts.

As part of the Canadian Engineering Competition series, QEC seeks the most talented Queen's Engineers to represent us at the provincial and national levels. Strive for excellence by engaging in competition with your peers. Our goal is to inspire each of you here at QEC, and our representatives to pursue a better tomorrow by raising the bar on our expectations of ourselves as future engineers.

Sincerely,

Connor Blandford
Engineering Physics, Sci '18
Co-Chair

Mukund Mauji
Applied Mathematics and
Engineering, Sci '20
Co-Chair

Dear QEC Delegates,

On behalf of the Engineering Society, we are excited to welcome each and every one of you to QEC 2018!

This year, QEC is bigger and better than ever before, as they have partnered with the Faculty of Engineering and Applied Science to continue the 125th anniversary celebrations of engineering at Queen's. QEC embodies the engineering spirit by bringing together a diverse group of people to creatively solve a diverse set of problems.

The weekend ahead will be full of networking, problem solving, and team work – make sure to seize every opportunity! We also remind you that should you prove successful in this competition, you will be on your way to holding the honour of representing Queen's University at the Ontario Engineering Competition, our regional qualifier in the Canadian Engineering Competition Series.

Kudos to the QEC Executive Team, led by Connor and Mukund, as they have done amazing work so far, and we cannot wait to see what the competition holds!

To you, the delegates: Good luck, make the most of this experience, and, of course, have fun!

Carson Cook
Engineering Society - President

Sam Roper
Engineering Society - Director of
Conferences

QEC wouldn't be possible without
the support of our sponsors.
Thank You.

ENGINEERS

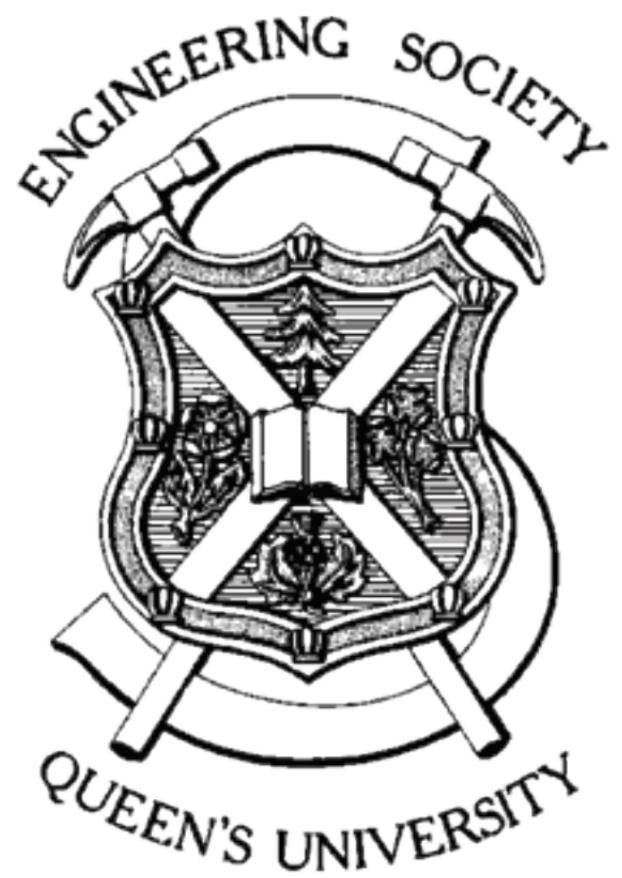

BEHIND EVERY GREAT ENGINEER.

HOUSE OF

Thank you for 125 years of
engineering excellence.

Friday

Registration	BioSci Atrium 6:30PM – 7:30PM	Come register for QEC!
Welcoming Address followed by Wine & Cheese	BioSci Atrium 7:30 – 9:30PM <i>Business Casual</i>	Speakers from QEC, EngSoc and the Faculty of Engineering and Applied Science will introduce the competition, followed by a relaxed Wine & Cheese social (remember your ID!)

Saturday – Competition Day

Registration and Breakfast	BioSci Atrium 8:30AM – 9:10AM <i>Casual</i>	Remember to register! Continental breakfast will be served.
Introductions	BioSci 1101 9:10AM – 9:30AM	A brief introduction of the day's activities.
Problem Statements	BMH – ILC 213 9:30AM – 10:00AM	Your Challenge Leader (Nathan) will describe the competition and rules. A Q&A period will follow for clarification on specifics. From there, all teams will head to the ILC to begin the competition.
Competition Time	BMH – ILC 10:00AM – 3:00PM	Competition time! All competitions will be receiving lunch during this time.
Judging Begins along with Industry Expo	BMH - ILC 3:00PM – 5:30PM	Teams will be debating in tourney format - while waiting to debate feel free to checkout our Industry expo.
BREAK	5:30PM – 6:15PM	
Closing Banquet	ARC Gym 1 6:15 PM <i>Semi-Formal</i>	Congratulations! You've made it through the day, now it's time to enjoy our celebratory dinner. Concluding remarks and awards will be given to mark the closing of QEC 2018.
STAGES	Any time before 11:30 for lineskip	Ok I've tried to be pretty concise with the rest of this schedule to avoid confusion and make things as easy to follow as possible, so I'm going to try to be crystal clear: We're going hard. And I'm not talking "your best friends spring-break themed b-day party", I'm talking "your best friends MTV Cribs-themed b-day party where the house is stocked with more bottles of ice than a Dasani factory in December and you have to take a knee for every single one." Yeah, we're going hard.* <small>*100% optional, if you're a faculty member or sponsor and you're reading this I'm happy your taking such an interest in our social outings</small>
